

Are you losing millions of dollars in market cap because of investor ignorance?

Fear costs millions in project valuations. We can help. **Country Reports** help investors understand location risk. Our sources are international organizations such as World Bank, OECD, CIA World Book, the Fraser Institute, government officials within the country and our intensive on the ground research. Literally weeks of research, travel, interviews, filming and editing go into every Country Report.

Chile:

- Mining as a percent of GDP: 16.4% in 2009
- Chile produces 35% of the world's copper
- Chile has the largest reserves of copper, rhenium and nitrates.
- Third largest reserves of molybdenum.
- Chile also produces significant quantities of gold, silver, zinc, iron ore, lithium and coal.
- Deposit types include IOCGs (Iron ore, copper, gold), porphyries and hydrothermal gold deposits.

We remove or mitigate fear with knowledge. Knowledge is more than power — it is money. We guarantee a Country Report will provide you and your investors and potential investors with a sounder understanding of risk than you can receive anywhere in 10 minutes.

RI COUNTRY REPORT

better due diligence

resourceINTELLIGENCE.NET
the world leader in *mining media and technology*

Country Reports are sponsored by individual companies. The credibility associated with the Report is powerful. Whether the investor is a fund manager, analyst or a retail account, they are simply impressed with the research and the understanding communicated. Nothing compares. The combination of facts, people and places with the sights and sounds of the country powerfully convey the message of the country and the sponsorship.

Each sponsor's projects are included in the report complete with dramatic imagery and accurate positioning of the project within majors operating in the region. The company's name and logo are prominent at the beginning and end of the report. The

company can distribute the video to their shareholders, place it on their website, and use the images in their promotional material.

Additional exposure is won by Country Reports by placement on the home page of resourceINTELLIGENCE for a year and it is posted to hundreds of websites globally.

Pricing:

\$3500 for 12 months. Includes corporate logo, Google Earth. There are not any travel costs borne by the sponsor.

One of our Country Reports covers Chile — captured here, old and new.
